## This term – Summer 2

Our topic this term is 'How do we connect?' Our science theme this half term is focussed on electricity. We will look at creating electrical circuits and exploring electrical safety. We will then apply our knowledge into creating a lighthouse for DT. For English we will be focussing on poetry and story writing. For maths we will explore time, shapes and statistics. And for History we will be learning about how electricity has become crucial to every day life and how it changed our lifestyle over the years.
